PORTABLE // PAPER

A design initiative from jewellery designer Saskia Diez, the Papier Bag range offers a functional take on hand luggage. Crafted from Tyvek, a synthetic and lightweight paper material, the bags are designed to make travelling easier, without the hassle of lugging around something cumbersome. The waterproof and tearproof bags are ideal carry-ons, and are available in simple hues of grey, off-white, black and blue. Reminiscent of the classic Pan Am carry-on, the Papier Bag imbues your adventures with a stylish touch. @ www.saskia-diez.com

FLIRTATIOUS // INTIMATES

Forming a friendship and creative partnership while studying at NYC's coveted Fashion Institute of Technology, Daisy Hartmann and Elizabeth NeSmith shared a keen eye for creating sustainable intimate apparel. Bridging the gap between practical underwear for daywear and beautiful lingerie for night-time, the daisy & elizabeth collection is designed to be worn in any situation. Embodying a subtle athletic aesthetic, the sustainably designed lingerie collection is simultaneously flirtatious and flattering. @ www.daisyandelizabeth.com

DAPPER // DRAWERS

While a gentleman's undergarments are preferably only seen by a chosen few, those who do get a glimpse will no doubt appreciate a well-considered aesthetic. New York City-based label Choctaw Ridge concentrates on creating understated and classic undergarments for discerning gents. Harnessing the refined aesthetic of the 1930s, the brand returns to classic design, tailoring and packaging. Adhering to the ethos that 'less is more', Choctaw Ridge handcrafts boxer shorts in vintage-style hues and stripes made in lightweight Japanese linen and cotton chambray. @ www.choctawridgenyc.com
